AGENDA

(10:00-10:10 am) Approval of the minutes of September 28, 2005 meeting.

(10:10-10:40 am) – Review the Committee’s task to examine the tsunami hazards and risks potential in California and identify areas needing improvement. Finalize suggestions on report contents, format, graphic, tables and pictures. Review of the priority of the report which is to state the possible sources of tsunamis, show that historically they have occurred using Pelio tsunami knowledge, talk about the five state coalition and to have not more than five findings and recommendations. The goal is that it be used as an educational tool, to make sure the Governor and Legislature can use this as a tool to talk with the media when asked questions.

(10:40-11:00 am -) – II The tsunami hazard in California – Tsunami description, California tsunamis, distant and local tsunamis, risk to California and responsible agencies

(11:00-11:30) – III The nature of the tsunami risk in California – Casualties, Financial losses and Seaports

(11:30-12 noon) – IV Two case studies – Indonesia and June 14th alert in California

(12:00 noon-1 pm) – Working Lunch – Review of morning agenda items

(1:00-1:30 pm) – V Reducing the Risk – Engineering, Education, Evacuation Plans and Warning system

(1:30-2:15 pm) – VI Seismic Safety Commission Findings and Recommendations

(2:15-3:00 pm) – I Executive Summary
